

KBC App

KINGSTON BOULDER COOPERATIVE

Everything KBC, in **one place.**

Sign in when you arrive, keep track of your membership and punches, see what's on the schedule and who's supervising, look up another member, and log your climbs. It's how the co-op keeps itself organised — and it runs on your phone.

Point your camera at the square.

kbc-app-3307b.web.app

No app store and nothing to download — it opens in your browser. Sign in with Google; the first time, it walks you through your profile and waiver.

Sign in	Tap in when you get here. Your punches and pass keep themselves up to date.
Membership	What you hold, what's left on it, and when it runs out.
Schedule	Who's supervising, which sessions are open, and how to ask for one.
Members	The co-op directory, with everyone's access at a glance.
Boulders	Every problem we've set, by season and by wall.
Log Book	Your own record — sends, attempts, projects, notes.

KEEP IT ONE TAP AWAY

Save it to your home screen and it gets its own icon, like any other app.

iPhone & iPad — in Safari

1. Open the link in **Safari**.
2. Tap **Share** — the square with the arrow coming out of it.
3. Scroll down, tap **Add to Home Screen**.
4. Tap **Add**.

Safari only. Chrome on an iPhone has no Add to Home Screen — if you scanned with a different browser, paste the link into Safari first.

Android — in Chrome

1. Open the link in **Chrome**.
2. Tap the **three-dot menu**, top right.
3. Tap **Add to Home screen** — or **Install app**, if it offers that.
4. Tap **Install**.

Chrome may offer to install it on its own — a bar across the bottom of the screen. Taking that does the same thing.
